

I am grateful to receive the Character Excellence Award. I would like to thank my teachers and classmates. They always cheer me up and encourage me not to give up. My teacher said, "You do not need to be great to start but you can start to be great." I would also like to thank "大爱妈妈". They read stories to us and through these stories, I have learnt important values such as respect, integrity, compassion and empathy.

I will be a good role model in future and encourage all my friends and peers to be kind to others as well as improve ourselves together!
